T&CS FOR METOS ANZ OFFER: PURCHASE ANY METOS WEATHER STATION AND GET 12 MONTHS OF DISEASE MODELLING FOR FREE.
ORDER BEFORE 15 DECEMBER 2027.

Who and what qualifies

- Metos ANZ. 88621450780 David Whattoff – Country Manager. Daniel Vallender – Key Accounts Manager
- **Who's eligible:** Australian growers only. New and existing customers. Through dealers and direct.
- **Which stations count:** METOS 5 300 station when purchased new. Station models have to have the correct sensors to support the disease model the customer wants. Limit 3 per customer.

The deadline

- Offer ends 15 December at 11:59pm AEDT Stations ordered and invoiced by Dec 15.

What "free" actually includes

- Which disease models are included 1 Disease model (1 crop), per station, per user.
- The 12 months starts when the weather station is paid for unless activation is after payment.
- Data/connectivity charges are not included (There is no extra to what a standard weather station costs). Most install themselves, however we can arrange this through third parties at their rates. Freight is added, at cost, at the time of invoice.

What happens after 12 months

- Subscription does not auto-renew. The customer will get an email explaining that their subscription will expire soon and they need to contact their supplier if they wish to renew it. Cost is $180.00 ex for 12 months

Standard conditions

- No cash alternative, not transferable, not combinable with other offers.
- If the station is returned or refunded, the free subscription ends.

Product disclaimer

- At Pessl Instruments, we developed disease model algorithms based on environmental parameters collected from growers' cloud-connected weather stations linked to the biology and the life cycle of over 80 different diseases to predict their development and progression in more than 45 different crops.
